Benefits of Salt Therapy

Salt Therapy focuses on the source of the problem, and does not just suppress the symptoms.

Benefits include:

- Kills viruses, bacteria and allergens
- Detoxifies the respiratory system (Asthma, Bronchitis & Sinusitis)
- Aids in healing skin conditions (Eczema & Psoriasis)
- Speeds up recovery from physical exhaustion or fatigue
- Promotes relaxation, calmness and better sleep
- Increases metabolism and promotes better digestion
- Helps to alleviate depression, anxiety and stress
- Elevates mental concentration and performance
- Strengthens the immune system

Salt enters the respiratory system, not the stomach, heart or kidneys. It is clinically proven that natural healing methods, such as Salt Therapy, is extremely effective with children, as it is a non-invasive therapy and medication free, children are unaware that they are undergoing therapy, as they passively inhale the micro-particles of salt.
